### Walkin; Hip-EEZ - Case Study Guidelines

#### Practice Details Needed:

- Name of Practice
- Clinic/Rehab Location
- Name & Credentials of Veterinary/Rehab Professional

#### Patient Details Needed:

- Name
- Breed
- Weight
- Age
- Diagnosis/Patient History

#### Description of Treatment Plan & Process Needed:

- How was Walkin' Hip-EEZ used?
- How was the Walkin' Hip-EEZ incorporated into treatment plan?
- How did the Walkin' Fit Hip-EEZ aid the recovery process?
- How long/how many times was Hip-EEZ used during case study?
- Were any of the Hip-EEZ attachments used during treatment? If so, which one?
- Did you notice any changes in treatment while using attachment?
- What conditions was attachment used for, what was the outcome

#### Photo and/or Video Documentation Needed:

- Photos are welcome, preferably in a practice/clinic environment.
- Video is ideal – we would love to see before & after visual to show patient's progress.

#### Questions to ask outside the Case Study

- How can the Walkin' Hip-EEZ benefit future patients & your practice?
- How do you see your practice using the Walkin' Hip-EEZ in the future?
- Any recommendations or changes you would make to Hip-EEZ?
- What size Hip-EEZ was used? Did the dog's measurements align with packaging recommendations?
- What makes the Walkin' Hip-EEZ different from standard or custom hip braces?
