

Dear Rosemary,

The Animal Medical Center is the world's largest non-profit animal hospital with 100+ veterinarians providing the highest quality medical care across 17 specialties.

The Integrative & Rehabilitative Service at the Animal Medical Center, the only facility of its kind in New York City, provides innovative and state-of-the-art therapies to help return dogs, cats and other pets to higher levels of functional mobility and improved quality of life.

Our facility employs only individuals that are certified in canine rehabilitation (including four veterinarians and three licensed veterinary technicians) in order to offer the most advanced expert care.

Walkin' Pets hindlimb and quad carts, and no knuckle socks, help our clients stay mobile despite their handicaps so they can remain active and maintain a great quality of life.

To learn more about the Animal Medical Center, visit www.amcny.org.
